Monitor + secure

Application Insights	Not enabled

Deployment

Basic authentication	Disabled
Continuous deployment	Not enabled / Set up after app creation

Create Web App ...

Basics   Database   Deployment   Networking   Monitor + secure   **Tags**   Review + create

Tags are name/value pairs that enable you to categorize resources and view consolidated billing by applying the same tag to multiple resources and resource groups.

Note that if you create tags and then change resource settings on other tabs, your tags will be automatically updated.
